Subject: RE: Plaintiff's Motion

I did not agree that there is a mathematical error in the court's calculation, as I said several times.

Subject: RE: Plaintiff's Motion

To be clear, I requested that the Secretary agree that there was a mathematical error in the Court's calculation, regardless of the direction.

You have advised me that the Secretary will neither agree nor disagree that there is a mathematical error and request that the court review the calculation..

I did not request that you agree to a motion to raise the fees to \$73,000.

Subject: Plaintiff's Motion

Ms. Parish, to reiterate, you may not represent that defendant believes that the Court made an error in the calculation of fees. That is not Defendant's position. Defendant's position is that Defendant opposes Plaintiff's motion to raise the fees to \$73,000.

Thank you,

Anita Johnson
